CITY OF SPRINGTOWN CODE OF ORDINANCES

14.8 SWIMMING POOLS

It is the purpose of the following provisions to recognize an outdoor swimming pool as a potentially attractive nuisance and to promote the safety and enjoyment of property rights by establishing rules and regulations governing the location and improvement of swimming pools whether privately, publicly, or commercially owned or operated.

- A. No swimming pool shall be constructed or used until a swimming pool building permit has been issued therefore [therefor]. No building permit shall be issued unless the proposed sanitary facilities and water supply comply with applicable local and State Health Department's regulations.
- B. A swimming pool erected below ground or above ground with a depth of two (2) feet or greater maybe constructed and operated when:
1. The pool is not located in any required front or side yard abutting a street.
 2. A wall or fence, not less than six (6) feet in height, with self-enclosing and self-latching gates that are lockable at all entrances, completely encloses either the pool area or the surrounding yard area.
 3. All lighting of the pool is shielded or directed to face away from adjoining residence. If lights are not individually shielded they shall be so placed, or the enclosing wall or fence shall be so designed, that direct rays from the lights shall not be visible for [from] adjacent properties.
 4. No broadcasting system is used for the purpose of advertising the operation of the pool or for the attraction of persons to the premises. This shall not prevent a public address system necessary or useful to the supervision of the pool and the safety of swimmers.
 5. The swimming pool is no closer then [than] eight (8) feet from any property line.
